IPsec is a suite of protocols for securing network connections, but the details and many variations quickly become overwhelming. This is particularly the case when trying to interoperate between disparate systems, causing more than one engineer to just mindlessly turn the knobs when attempting to bring up a new connection.

Making sense of loneliness, and supporting meaningful measurement. In October 2018 the UK government announced a strategy to tackle loneliness in England, along with dedicated funding to help communities build stronger connections and alleviate loneliness. At the same time the Office for National Statistics (ONS) worked with a panel of experts to recommend a set of questions to help measure ...

Brickmaking Processes. PREFACE: There are three processes used in making bricks, varying primarily in the amount of water mixed with the clay. 3 STIFF-MUD/EXTRUDED: In this process, used for most building bricks, only enough water is added to the clay to make it into a stiff paste that can be extruded through a die into a long ribbon or column of clay.
