"I recently had to send in the computer from one of the Aim machines that we have. On the way there, the shipper mishandled it so by the time it got to your shop, it had a bent frame, the touch screen wires were torn from the glass, the standoffs were bent or gone and it still needed the hard drive that it had been sent in for.

Many of our finest Manufacturers and Machine Shops have closed their doors because of the lack of support from our own government. Professional politicians with little or no business experience have taken their toll on our industry. Our web site directory started on July 4th 2000 and many of our friends have closed their doors since then...

This article describes the brighter stars and deep-sky objects in the constellations Cancer, Leo, Virgo and their surrounding constellations (covering the region of the zodiacal band from Right Ascension = 8 hours through to 14 hours). All of the brighter stars can be seen with the naked-eye under clear, dark skies, however most of the deep-sky objects require the assistance of binoculars and ...
